

## **Wine at Cannizaro House**

The presentation is led by grape variety, so if you are partial to a Sauvignon Blanc like me, then you will find them together with examples of that grape from all over the World, likewise with all the leading grapes and their blends. So to keep it straightforward, there are sections based on Chardonnay, Cabernet and Merlot, Syrah and Rhone styles and Pinot Noir.

Of course, there are inevitably varieties that do not fall into these categories quite so easily and these find their home in the 'alternative' sections – these offer some of the most interesting and adventurous drinking from around the World and are sections certainly worthy of attention.

Throughout, the emphasis is on sourcing high calibre, small producers dedicated to their region and their craft; all through the list you will find such growers and makers – Dr Loosen in the Mosel, Pazo san Mauro in Galicia, Paul Prieur in Sancerre, the Winiaski family at Stag's Leap in the Napa, the Dupont-Fahn Domaine in Burgundy, Silvio Nardi in Montalcino and so on, all passionate about their place in the wine making World.

We want you to find good drinking at all levels and in all styles, whether they are European Classics or New World contenders.

Jeff Ward

# Champagne

## The Champagnes of Alain Thienot
